The pe ce negotiations at Paris have been abruptly terminated by the Spanish commissioners who have withdrawn from the conference and announced that they would no longer continue it. Their withdrawal tollowed the ultimatum presented by the Americans which Why divide the responsibilities demanded that the Spaniards cede to this government the Philippines upon the payment of a treaty cession of twenty million dollars. The termination of the negotiations will in no way affect the result as the the sections affected? Philippines will become an American possession by force. Further hostilities are not looked for as Spain has not the means to continne thewar and no power is backing her in her stand against the United States.

Attorney-General Nash has just rendered another one of his remarkable decisions. Speaking of it the Clarion-Ledger says:

"The board of Supervisors of Yazoo County have asked whether or not the board of supervisors can have the public roads in that county worked by contract by beats. The attorney-general's response is to the effect that the law does not give boards of supervisors power to have public roads worked by contract by beats. The Yazoo Board also wished to know whether they have a right to levy a special tax for this purpose. As the law does not give them the right to have the roads worked in the manner above specified, it goes without saying that they would not have the right to levy any tax. When a board determines to work the public roads, they must follow the directions of the statutes. If the legislature had intended to give the leine." Mrs. S. S. The Ounrantine Convention.

The Memphis Quarantine Convention has met and adjourned, but it is extremely doubtful if it has succeeded in accomplishing the purpose for which it was called. The Memphis convention was intended to bring together those whose views upon the quarantine differed in the hope that these differences would be harmonized and as an outcome of their deliberations a measure would be evolved that would deal with this important question in a manner satisfactory We are authorised to announce Mr. B. H. gress and although it was adopted strevess as a candidate for councilman from by the necessary majority vote it is well known that it is not what the delegates wanted or desired. It is truth is the advocates and opponer upon this issue.

The work of the quarantine convention is summarized in the following resolutions:

"1. That there be established on a broad and comprehensive basis a national bureau of public health in the Department of the Treasury of the United States; that the administration of all the public health functions now exercised by authority of the United States be placed in charge of this bureau-

"2. That the sanitary authorities and commercial interests of the several States of the Union be brought into immediate relations with the bureau and be given a due share in the power and responsibilities of the central board The Mobile & Ohio Railroad through the agency of an advisory Co. has closed a contract with the council consisting of one member

A national bureau of public

health may be a most excellent thing but what the people of the South want is a quarantine that spread of yellow fever here. It is only in the South that this quesfected by it. We have not heard of any great demand for the estabment of such a bureau in the great North or West. These sections seem equal to the task of dealing effectually with the epidemics peculiar to them. Then why bring them into a question that affects only a few Southern States? What interest has Maine in a quarantine intended to benefit Mississippi? and powers of such a commission unto forty-five states, thus giving the great majority of power to Northern and Western States who have no sympathy or interest in

It is only in the South that it has been demonstrated that the most stringent measures and precautions taken by State organizations to prevent the introduction and spread of yellow fever are ineffective and it is in the South that the opinion is general that a strong and firm quarantine maintained and operthe only remedy.

BABY'S SMOOTH, FAIR SKIN

A Grateful Mother Writes this Letter-Tells all about Her Troubles when

Baby Broke out with Scrofulz Scres-"At the age of two mouths, my baby began to have sores break out on his right cheek. We used all the external ap plications that we could think or hear of, to no avail. The sores aprend all over one side of his face. We consulted a physi-cian and tried his medicine, and in a week the sore was gone. But to my surprise in two weeks more another scrofulous looking sore appeared on baby's arm. It grew worse and wome, and when he was Hood's Saresparilla. I also took Hood's Sareaparills, and before the first bottle was finished, the sores were well and have never returned. He is now four years old, but he has never had any sign of those screfulous sores since he was cured by Hood's Sarsaparilla, for which I feel very grateful. My boy own his good health and smooth, fair skin to this great med-

will elect two United States senators. In filling these great trusts, Mississippians should see to it that no more white chips are played; Mississippi has men and statesmen the peers of any state in the union, morally, intellectually and otherwise, and she should call such men out of retirement and place them in her posts of honor

The demagogic cry that the gold bugs are doing this and that, and the other, is a cowardly effort to divert attention from records that smell to heaven, and deceives no one. Nine-tenths of the free silver press of the state has reprobated official obliquity and malignant incompetency and protest that a higher official standard shall be set for governor and senator; that next time blue chips shall be

The State needs more capital. It needs more railroads, factories, mills and people. The howl of the demagogue for repudiation and his cry against capital must be checked. The way to do this is for the press to continue to speak out, and for the people to invite the best and bravest Mississippians to meet them and speak to them on the issues of the State. For instance Jackson, Meridian, Vicksburg, Greenville, Grenada, Natchez, Aberdeen, Brookhaven, West Point and Columbus, and other towns in the State, should invite ated by the general government is Shauds, Jones, Chrisman, Allen, Sexton, Fox, Bowers, Williams, Mayers, Powers, McLean, Calhoon and hundreds of others-for the State is full of such patriots,to come to their towns and speak to them on State issues.

The State cannot stand another dose of demagogery. As McCool says it is worse than yellow fever.
